Vegetable Plants Since 1923

CABBAGE PLANTS (Ready Jan. 1 to Dec. 1)

Early Jersey Wakefield—Matures in 65 days

Very early, home and market garden variety. Heads weigh 2 to 2½ lbs

Charleston Wakefield—Matures in 70 days

Resembles Early Wakefield, but later and more heart shaped. Heads weigh 4 to 5 lbs.

Ferry's Round Dutch—Matures in 70 days

Ferry's Round Dutch has become a leading shipping and market variety. The heads are very hard, round and weigh 4 to 5 lbs. Equally good for the home and market.

CABBAGE PLANTS (Ready April 10-August 1)

Copenhagen—Matures in 70 days

This well known variety is recommended for market and the home garden. Uniformly round, solid heads weighing 4 to 5 lbs.

Golden Acre—Matures in 65 days

A very early round headed cabbage, grown for early market and shipping. Heads are round and solid and weigh 3 to 4 lbs.

Marion Market—Matures in 75 days

(Yellows Resistant)

Resembles Copenhagen Market but makes a larger head. Heads are round and firm and weigh 5 to 7 lbs. Ideal for home or market.

Danish Ballhead—Matures in 100 days

An excellent kraut and storage type with good crisp texture. Heads are large, firm, solid and weigh 7 to 8 lbs.

Penn State Ballhead—Matures in 100 days

Special strain of Danish Ballhead. Heads are extremely solid, hard and weigh 7 to 8 lbs. Recommended for kraut and winter storage.

Savoy (Chieftain)—Matures in 80 days

Medium large drumhead type. The heads weigh 5 to 6 lbs. and are round, well formed, and well crinkled leaves.

CABBAGE PLANTS

Red Acre—(Red Cabbage) Matures in 80 days

An early variety recommended for shipping, gardens and market. Heads are round, solid, and weigh 3 to 4 lbs. Deep Red. An excellent cabbage for slaw and colorful salads.

Wisconsin Copenhagen—Matures in 79 days (Yellows Resistant)

Resistant Copenhagen Market Strain with deeply rounded, solid heads of excellent color and ideal size for market, 3 to 4 lbs. For Summer or Fall.

Greenback—(Yellows Resistant) Matures in 75 days

A highly successful new cabbage for both local market and long distance shipping. It matures after Copenhagen and has proved outstanding for summer and fall crops in the North. The heads are round to slightly deep and solid. They are medium in size, just right for modern markets and the quality is excellent. Greenback is resistant to Yellows, stands cold weather and packs well for market or shipping. We highly recommend it.

All our plants are open field grown, grown from certified seed on new land each year. These plants are cultivated to give a better root system. They are ready for transplanting when you receive them. We have thousands of satisfied customers who tell us how well our plants produce for them.

FIELD GROWN TOMATO PLANTS

VIRGINIA STATE INSPECTED

Grown from Hot Water treated Certified seeds to insure
you healthy, vigorous plants, free from disease

(Ready May 10 to August 1)

Rutgers—Matures in 73 days

Still the favorite in nearly all important tomato growing sections. It is large in size, fine flavor and has a good rich red color that goes all through the fruit, making it excellent for market, cannery and home garden. The vines are large and very husky, giving good protection and stand up well even late in the season, bearing until frost.

Marglobe—Matures in 73 days

Like the Rutger, it is a large, red tomato. Vines are large and vigorous, giving good protection to the crop. It is good for cannery, market and home use.

Stokesdale—Matures in 65 days

An early variety recommended for canners, shippers, and home gardens where the growing season is short. It does well in all sections and the fruits are red, large and smooth. The plants are vigorous and grow well.

Valiant—Matures in 65 days

An early ripening variety recommended for early market and home gardens. It is large, meaty fruit of deep globe shape, good color and mild flavor.

Prices on Tomato Plants by Mail, Prepaid

(Rutgers, Marglobe, Stokesdale, Valiant)

(Postage paid and delivered to your door—Nothing else to Pay)

100, \$1.25; 300, \$2.75; 500, \$4.00; 1,000, \$6.50

Prices by Express—Shipping Charges Collect

\$3.50 per 1,000

Sunray—(Yellow-Orange fruit)—Matures in 80 days—Very meaty and Acid-free

Sunray is resistant to Fusarium Wilt and has a delicious sweet mild flavor. It ripens in season with Rutgers and produces large yields of fine smooth fruit, very firm and solid. The rich golden-orange flesh is most attractive and wonderful to eat.

Red Jacket—Matures in 70 days

A fine canner, it is medium early, outstanding for heavy tonnage and is widely grown for canning but is a good tomato for home gardens. The fruit is large, meaty and well colored, inside and out. Distinct Potato-leaved vines.

Glamour—(New and Crack Resistant) Matures in 77 days

A crack-resistant, mid-season tomato; highly promising for New York and nearby areas. Matures with Longred. Glamour bears good-sized to large fruit all season. The fruit is smooth, firm and is mild in flavor and colors well from the inside. Glamour ripens slowly to a bright red and holds up well in handling. Glamour has a very high percentage of No. 1 fruit, excellent for market and canning.

Fireball—Matures in 60 days

If you want extra early tomatoes, here is a great money-maker. Fireball ripens well ahead of the standard varieties and produce big crops of smooth, firm tomatoes, at a time when prices are still high. The vines are small with little foliage and should be planted close 1 to 2 feet apart. The blossoms set in large clusters even at cool temperatures and the medium-sized fruit ripen quickly from pale green to bright red. They are extra early, smooth, uniformly globe-shaped and weigh 4 to 5 oz. Good quality, not acid or sour.

Longred—Matures in 70 days

The leading mid-season variety for New York State and many other areas, both for market and processing. It matures early enough for fall production and continues to bear until frost. They have a fine rich red color with thick walls and solid flesh. Longred ripens uniformly and the large size and smooth shape hold up well on all pickings. It gives very heavy yields.

Roma (Italian Style)—Matures in 70 days

Roma is an excellent paste tomato and resistant to Fusarium Wilt. The vines are compact and vigorous and they set clusters of firm plum or pear shaped, bright red fruit that measures 2 to 4 in. long by 1-1½ in. in diameter. The interiors are solid with thick walls and fine color and very few seeds.

Prices on Tomato Plants by Mail, Prepaid (Longred, Red Jacket, Glamour, Fireball, Sunray, Roma)

(Postage paid and delivered to your door—Nothing else to Pay)

100, \$1.50; 300, \$3.50; 500, \$4.50; 1,000, \$7.50

\$5.00 per 1,000**

FIELD GROWN HYBRID TOMATO PLANTS

(Ready May 10 to August 1)

F2 Stokescross No. 4—Matures in 75 days

The vine is lighter than Rutgers and matures early. This tomato is in strong demand by the Green Wrap trade and processors. It will set readily, will develop full color to the stem and its interior structure will allow long distance transportation. It is especially recommended for the shorter season areas of the northern states. It is also recommended for home and market gardens.

F2 Stokescross No. 6—Matures in 78 days

Strong features are resistance to Fusarium wilt and resistance to cracking. Stokescross No. 6 requires a full season for maturity, but it will keep on bearing until frost. Its interior quality and color are excellent. It is strongly recommended as a high quality main season tomato.

Prices on Hybrid Tomato Plants by Mail, Prepaid (Stokescross No. 4, Stokescross No. 6)

(Postage paid and delivered to your door—Nothing else to Pay)

50, \$1.25; 100, \$2.00; 300, \$4.50; 500, \$6.00;
1,000, \$10.00

Prices by Express—Shipping Charges Collect
\$7.50 per 1,000

Our plants are grown on soil, which is free of Nematodes, the cause of "Rootknot" and other plant diseases. Our seed beds have been treated with a fumigant and the plants sprayed against blight, to make doubly sure that you receive plants from us free of Nematodes and other plant disease fungi.

Our tomato plants are Virginia State Inspected to insure you of plants free of disease. Set our plants and be sure of bigger yields and more profit.

PEPPER PLANTS

(Ready May 20 to July 15)

California Wonder—Matures in 75 days (Sweet)

This is the leading market garden and shipping variety. The plants are sturdy, and even, heavy producers where the season is long, and the fruit is the best type, very smooth. The flesh is extra thick, firm and sweet with good flavor. Usually marketed in the green stage but will ripen to a bright red.

Yolo Wonder A—Matures in 75 days (Sweet)

Yolo Wonder A is a California Wonder type, resistant to tobacco mosaic. It is a fine yielder in fairly long seasons and is a highly dependable producer. Fruits are large, thick-meated and good for market and home garden.

Hungarian Yellow Wax—Matures in 60 days (Hot)

This variety is very early and is desirable for home garden, market and canning. It ripens early to a waxy yellow, turning bright red when fully ripe. The fruits are 5 to 6 inches long and 1½ inches in diameter, smooth, tapered and pointed.

Long Red Cayenne—Matures in 68 days (Hot)

A leading pepper for use in pickles, canning and drying. Fruits are 5 inches long, ½ inch through, tapered, deep green becoming bright red.

Prices on Pepper Plants by Mail, Prepaid

(Postage paid and delivered to your door—Nothing else to Pay)

50, \$1.00; 100, \$1.50; 300, \$3.50; 500, \$4.50;
1,000, \$7.50

Prices by Express—Shipping Charges Collect
\$5.00 per 1,000

We specialize in loading trucks with fresh pulled plants. Send your truck for small or large orders. (You will save the Express charges), making the cost of your plants much cheaper. Also your plants will arrive earlier and in better condition by truck, therefore making it possible for you to set your plants from 1 to 3 days earlier in your fields and in some instances making your crop ready for market several days earlier, meaning more profits for you.

We can ship large shipments of plants by Air Express. Contact us if you want plants shipped Air Express.

SWEET POTATO PLANTS

(Ready May 5th to July 15th)

Bunch Porto Rico— (Vineless)

The Bunch Porto Rico is an early variety and produces potatoes 2 to 3 weeks earlier than the regular vine type Porto Rico. Easy to cultivate as it has no vines and grows straight up. It has better internal color, more uniform and excellent for market and home use.

Prices on Bunch Porto Rico Sweet Potato Plants by Mail, Prepaid

(Postage paid and delivered to your door—Nothing else to Pay)

100, \$2.00; 300, \$5.00; 500, \$7.00; 1,000, \$10.00

**Prices by Express—Shipping Charges Collect
\$7.50 per 1,000**

Porto Rico—

This variety is the running type and is medium early. It is a light red potato and is good for market, canning and home use.

Cuban Yams—

This variety is medium late and is the running vine type. It is a red potato and is good for market, canning and home use.

Nancy Hall—

This variety is medium early and is the vine type. It is a light yellow potato and dry. We recommend Nancy Hall if you like a dry potato.

Prices on Sweet Potato Plants by Mail, Prepaid (Porto Rico, Cuban Yams, Nancy Hall)

(Postage paid and delivered to your door—Nothing else to Pay)

100, \$1.50; 300, \$3.50; 500, \$4.50; 1,000, \$7.00

**Prices by Express—Shipping Charges Collect

ONION PLANTS

(Ready February 1st to July 1st)

Yellow Sweet Spanish—

Sweet Spanish makes bigger onions of milder flavor than any other kind. They are excellent when cooked or for use in salads or other ways without cooking. Sweet Spanish are uniform, have a light yellow skin and pure white, firm, crisp, tasty flesh. Recommended for home gardens and market.

Yellow Bermuda—

This variety is very good for early market and garden. The onions are medium sized, mild and white flesh with a yellow skin.

White Bermuda—

This variety is the same as Yellow Bermuda except that it has a white skin.

FROM

DIXIE PLANT COMPANY

P. O. Box 327

FRANKLIN, VIRGINIA

Our Virginia Plants are becoming more popular every year as our climate here is ideal for growing vegetable plants; not too hot. We have some cool weather during our growing seasons which keeps our plants from growing too fast and spindly, thus making our plants more hardy, sturdy and resistant to cool windy weather—making them better adapted to the Northern climate. In most cases our plants produce better and larger yields. If you haven't tried our plants, we suggest that you do so this year for larger yields and more profit.

that it has a white skin.

COLLARD PLANTS

(Ready May 1st to December 1st)

Cabbage Collard—(Heading)

A desirable type with large clusters of leaves which often forms a head. Recommended for home gardens and market.

Vates—(Non-Heading)

This variety is a very leafy and dark green. It is preferred by market gardeners and canners because it has practically no tinge in stalk or leaf. Excellent for home gardens.

We buy the best strains of seed that can be bought from good reliable seedsmen, which have always proved to be satisfactory. These seeds are treated, packed in 1 lb cartons with a government seal for your protection—assuring you of better plants, vigorous and true to name. We also personally plant all of our seeds and label them—again assuring you of plants true to name.

The quality of plants you use in your gardens and fields will determine the quality of the crop you will harvest. Make your time, labor and fertilizer count by planting our quality plants. "Buy the best and forget the rest."

Our Virginia Plants are becoming more popular every year as our climate here is ideal for growing vegetable plants; not too hot. We have some cool weather during our growing seasons which keeps our plants from growing too fast and spindly, thus making our plants more hardy, sturdy and resistant to cool windy weather—making them better adapted to the Northern climate. In most cases our plants produce better and larger yields. If you haven't tried our plants, we suggest that you do so this year for larger yields and more profit.

BURPEE'S BIG BOY GIANT HYBRID

Matures in 75 days—Most popular of all

(Plants ready May 10th)

Big Boy is the largest of our true, first generation (F1) Hybrid tomatoes; many weigh 1 lb. and more, some 2 lb. and over. Big Boy tomatoes are perfectly smooth, deep globe in shape and very firm; scarlet-red color, thick walls, with bright red, meaty flesh of fine flavor and excellent quality. At its peak of performance in mid-season, although large fruits are produced late in the season when many standard varieties decline in yield and size. Ideal Hybrid for the home and market grower, especially roadside sales. The demand for Big Boy Tomato is greater than for any other plants. Plants are very large, extremely vigorous, semi-upright to spreading; moderately dense, dark green foliage protects the fruits from sunscald. They produce fruit until frost.

Prices on Burpee Big Boy Giant Hybrid Tomato Plants

(Postage paid and delivered to your door—Nothing else to Pay)
